Three resolutions authorizing the health Three resolutions authorizing the health beard to employ two sanitary inspectors and eight assistants at a sainty of \$100 a month each, were adopted at a meeting of the City Council last night. This step was agreed upon prior to the council meeting, the members of the council having met with Mayor Mott in his chambers. Despite Mayor Mott's bereavement, he considered the matter of such importance considered the matter of such importance that he called the councilmen together, tolling them that it would be useless to leave the city without santary protection in the face of urgent requests by the federal authorities that this city keep up the good work which has gone before in regard to the cleaning up of the city at large.

Reckless of Proof

The defendant was apparently heedless of what Eisenschimmel was proving against her, but few people in the courroom seemed to feel otherwise than that the demonstration was more a warrant for extreme concern than of indifference on the part of the accused.

There was a suggestion of a technical character in some of the remarks of the professor but it was rendered clear to the jary and auditors by practical demonstrations by crayon as well the loop in question took the downward direction and this direction was taken by the loop in "k," in Oakland, in sov-eral instances. The chart on which were found the peculiarities of the letter in question, was passed to the jury and was

### Peculiar to Defendant

The next letter was the capital "O." Eisenschipmel said it was a peculiar letter of the defendant's. It commenced with a left hook and this was most pronounced in the word "Ogden." The witness was most proposed to the word "Ogden." neunced in the word "Ogden." The witness also domonstrated that in writing the word "Ogden" the defendant used a smaller "O" than she did in writing the word "Oakland." This was a peculiarity which he noticed in every instance where the two words appeared. The "g" and "d" were separated in the word "Ogden." both in the superscription, as also in the body of the letter. The "n" in the indge's name was identical with every terminal "n" which could be found in the exemplars. In overy instance of Miss Minuie McCloud and Miss Edith Van Denburg.

In the letters "land," the witness stated that he had always found the combination with an open "a."

Eisenschimmel then took up the letters "den" in "Ogden" and declared they were written in the same manner wherever they were found in the letters and on the envolopes.

In the exceptional cases a downward "tip" had been given to the starting point of the figure for the purpose of concealing identification.

The defondant used two capital "As," one of which was usually "A," the first letter of the alphabet with two down strokes, and one cross stroke, and the other was the anlargement of the small "a" of the Spencerian style to capital size, and each of these was shown to have been used by the defondant in the same connection in both her letters and in the samples of writing which went to Judge Ogden which were submitted to the expence of the alphabet with the defondant in the same connection in both her letters and in the samples of writing which went to Judge Ogden which were submitted to the expence of the exceptional cases a downward and with two down and the samples of writing which went to Judge Ogden which were submitted to the expense of the samples of writing which went to Judge Ogden which were submitted to the expense of the samples of writing which went to Judge Ogden which were submitted to the expense of the injuries.

Fer-Don's Musical Company at the Columbia Scores Big Hit--Never Such Crowds in the History of the Theatre.

And still they came—long after all the sents were sold crowds beseiged the box office for standing room, for Fer-Don certainly has the town wild over the big musical extravaganza he is putting on at the Columbia Theater on Tenth street George Taylor and H. Morgan Prince, two peerless colored comediums, make more fun in a minute than the ordinary stock company, in an evening's performance. And that Croole chorus certainly delivers the goods. Imagine a big company like this, ill colored performers, full of natural wit, giving an entire evening's entertainment for a dime. Do you wonder Fer-Don its packing this theater with more people than have ever seen the inside of it before? musical extravaganza he is putting on at

### Esthetic and Practical Progress of Oakland.

The racid progress which is being made in parksimprovement in Oakland is earning for it the name of the city of parks. Its parked areas are not as large as some other cities on the coast; but it has acquired so many park sites and is devoting itself with such earnestness to their beautification that, in the course of a few years, they will have so enhanced the natural setting of its site as to justify the new name. Since the restoration of Harrison Square to park uses in 1887, the work of park improvement has progressed with varied degrees of activity through each successive administration. The present administration has, however, made a specialty of municipal adornment, and the parks will remain a monument of its effici- neighbor's designs grows out of the Brazilian contracts let to British ency and worth through the generations to come.

The prospect which park improvement opens up for Oakland is undoubtedly pleasant to contemplate. But, the city's future is based on something more substantial and practical than this esthetic park development and municipal adornment. These only make it more seductive as a place of residence and more attractivé to tourist travel to gravitate toward it. The city's future greatness will be built up on i's commercial growth and its pre-eminence as a railroad center, as a point on this western seaboard where ship and car come incomparable water front of limitless commercial possibilities on the mainland shore of one of the most magnificent bays on the earth, its great destiny is assured.' Nothing can prevent its consummation and nothing can delay its accomplishment except the indifference of its own citizenship and a criminal failure to utilize its opportunities. It has had such a foretaste of prosperity, however, that future indifference to its best interests is among the improbabilities. Not a member of the community can afford to put himself in the position of attempting to block the course of intelliaction for the general advancement of the city's vital interests. ## A Fool and Her Husbands.

Sympathy would be wasted on Mrs. Anna Gould, who got rid of her first hisband, the notorious Count de Castellane, that she might marry Lis equally disreputable cousin, the Prince de Sagan. Mrs. Gould is a woman of mature years, and her long matrimonfal experience with de Castellane should have taught her a lesson, but it did not. She knew de Castellane was a rake and a spendthrift found Prince de Sagan more to her liking. With the characteristic guerilla bands who carried on the desultory, predatory war for incynicism of a debauchee of his class, he regarded his wife as a dependence. These same bands were preparing to renew the same as de Castellane did, in violating his marriage vows and in showing his contempt for his marital obligations. Still his wife has no vagabond patriots expect the impossible. They want a government claim to pity, save the contemptuous compassion bestowed on fools. that will enable them to live without work, that will rain manna, She jumped into the frying pan with her eyes open, and then she cigarettes and doubloous, and make life a perpetual fandango. Of jumped from the frying pan into the fire a burnt child well knowing course this mestizo ideal of a government is impossible of realization, what she did. She got precisely what she bargained for. Of course she's a fool, but her folly may serve to teach wisdom to other American women laboring under the delusion that anything but unhappiness and dishonor can come of marrying into the tenderloin section of the European robility.

### Naval Programs of South American Republics.

Trouble between Brazil and Agentina has been averted through timely explanation that a cipher dispatch sent by the Brazilian Foreign Minister to the Brazilian minister at Santiago, Chile, was not unfriendly to the Argentine Republic but quite to the contrary The incident which made this explanation necessary shows how sensitive rival governments are on every measure affecting their respective interests and on what insignificant trifles the question of war or peace often hangs in the balance.

The explanation which Brazil has just made to the Argentine government and which has satisfactorily allayed its distrust of its dockyards about a year ago for several battleships of an improved and enlarged Dreadnaught type. These vessels are now being constructed and when in commission will make Brazil the strongest naval power among the South American republics.

Incidentally, these contracts threatened at one time to cause friction between the governments of Japan and the United States, through currency being given to a bogus report that Brazil's interest in them was a mere blind; that when they were ready to go into commission the Mikido's flag would be flying at the peak, and that together in he handling of one-half the world's traffic. With an their addition to Javan's already strong navy would be a menace to American supremacy in the Pacific Ocean. The Japanese gov ernment was quick to disclaim at Washington all interest in the warships, and the policy of retrenchment which has since been put into operation at Tokio is proof of its sincerity.

Since Japan's disclaimer of any interest in the Brazilian warship contracts, Argentina's suspicions of Brazil's intentions have been excited and a close watch has been kept on Rio de Janeiro and Santiago. As the result of a secret espionage, the Argentine government intercepted the cipher message whose contents have just been gent progress in all its varied ramifications. The entire community made public by the Frazilian government. The interpretation which should be, ir fact, a unit in the carrying out of a well-considered an expert employed by Argentina to disciplier the message made was is a commendable ambition to beautify the municipality so that it appropriation for the purchase of enough battleships to place the vastly of greater importance and more profitable withal to hasten dispatch now shows that it contained nothing but expressions of the warmest friendship for its neighbor and that the Argentine cipher expert had committed a big blunder. Peace still hovers, therefore, over both republics." Whether Argentina will carry out her naval plans after this explanation remains to be seen,

# Sweden's Forestry Lesson.

The little Kingdom of Sweden is giving the United States an object lesson in forestry which ought to be taken to heart. The chief export products of that country are timber, charcoal and iron. The care of the forests is placed in the hands of a royal com-Federal Supreme Court which declared that the constitution does mission. The latter's report for the year 1907 shows that the total revenues from fores products aggregated \$13,250,000. But the important feature for the United States to consider is centered in the fact that during the same period there was accumulated through reforestation a growth of new timber twice the amount of that which was removed. Sweden is thus perpetuating this valuable national resource by artificial forestation.

The irrational policy of the denudation of the forest lands has been followed in this country without regard to a future supply of timber. The greed of lumber manufacturers has induced them to denude the land of its merchantable timber growth for immediate gain. No effort was made to arrest the progress of devastation until it became self-evident to the most indifferent student of American forestry that the end of lumbering was in sight, unless the policy was changed. The iritiative to the preservation of what remained of the forests of the country was taken when the government began to withdraw the unoccupied public timber lands remaining and establish on them forest reserves and national parks and induct a nothing toward its restoration. #### Crash Together

The conductor had just placed it on the wire when the car in charge of Harty ran into the stationary car at high speed. The back of one car and the front of the other were telescoped ogether and the unfortunate inotorman was pinned amidst the tangled wreckage and badly cut by crashing glass. Conductor Maloney was thrown to the of the roadway, receiving a sprained knee and several wounds of the head and face. As soon as the motorman could be extricated an au-tomobile was pressed into service and he was rushed to the Central Emer-gency Hospital, where Dr. Topham started to work on him immediately. His face was badly crushed, his fea-tures being almost unrecognizable, and he received numerous bruises and abrasions of the body, sprains and cuts of both hands and arms, and both feet were severely crushed.

There were no passengers on the cars at the time of the accident.

# PROPOSE LIQUOR LAW TO REGULATE 'SOCIAL CLUBS'

Mayor Says Societies Are for Sole Purpose of Selling Liquo,

An ordinance amending the present liquor license ordinance, and which looks forward to suppressing numerous so-called social clubs, which, in the opinion of the city office is, were organized for the sole purpose of selling liquor without is license and for 1 roit, was introduced at the City Council needing last night and was referred to the cidinance and juditalents. clary' committee.

Proposed Law:

The amended section of the ordinance as follows:

Any person, firm, corporation or association of persons organized and existing for purposes other than profit shall in the discretion of the Council of the offer of the Council of the offer of Content from

shall in the discretion of the Council of the city of Oakland be exempt from any license tax required herein, and such person, firm, association or corporation so exempt shall not be required to give bond or recommendation of citizens, or furnish the application as required by section 4 of this ordinance, but said person, firm, corporation or association requesting said exemption rom license tax shall file with the Council a petition therefor, stating therein the name and the business address thereof and the purpose of organization and existence.

Message From Mayor

The following message from the Mayor accompanied the ordinance:

"I hand you berewith an ordinance amending ordinance No. 220-3, commonly known as the liquir license ordinance, it seeks to amend the present ordinance by adding a new section, and the object sought to be accomplished thereby is ordinant this:

"During the part form." Orieny this:
"During the part few months or so a number of individuals have incorporated

so-called 'social' clubs under the laws of the State of California, and under our existing ordinance these clubs are under no municipal regulation whatever. They are not bona-fide social clubs, as that terms is generally accepted to moan.

Nature of Clubs

Nature of Clubs

"These clubs that have spring up sell liquor primarily to club members only, but as incombinity in most of them can be secured by most any one by the payment of a nominal membership fee of from twenty-vilva cents to one dellar (which membership fee is generally codermable in merchandise), it is self-evident that most of them have been incorporated purely for the purpose of evading the payment of the fluor fleense and the polica regulation vested in the city under the present ordinance.

"Unlike the Athenian, Elies' and Nile Clubs, and possibly one or two others (to which the selling of liquor might be said to be merely an incliental part of their existence and interests), these other so-called clubs have so organized solely for the purpose of selling liquor without a fleense and for profit.

No Regulation

No Regulation

"Saloons and restaurants must coase selling liquor at 1 a. m., but there so-called clubs can keep open all night and are under no polico regulation whatever. "The ordinance presented herewith will remedy this cvil. I nater its operation all clubs in the city will be compelled to secure permission before selling liquor, and you will have power to refuse permission to those so-called clubs that have organized to evade the payment of a municipal license and police regulations, and you should, in my opinion, grant permission cally to clubs that can demonstrate to your honorable body that they are organized for legitimate social and educational purposes, and that the selling of liquor to members is merely an incidental part of their existence, and not their sole ob-

HOW TO CURE A COLD.

Re as careful as you can you will occasionally take cold, and when you do, got a medicine of known reliability, one that is certain to effect a quick cure. Such a medicine is Chamberthi's Cough Remedy. It has gained a world wide reputation by its remarkalle cures of this most common aliment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the serretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows cone usively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by Osgood Erros. Seventh and Erradway and Twelfth and Washington streets.

Foley's Honey and Tar chars the air passages, stops the initation in the throat, soothes the inflarned membranes and the most obstinate cough disappears. Sore and laniamed lungs are healed and strongthened, and the cold is expelled from the system. Refuse any but the genulain in the yellow packato. Sold by all druggists.

# SHARP FIGHT OVER LIQUOR LICENSE **APPLICATION**

Personalities Exchanged in Council as Result of Conflicting Opinions on Saloon.

There was a heated argument in the City Council last night, and personalities were indulged in, when the recommendation of the license committee that A. E. Rose be denied a license to conduct a saloon at 6020 Adeline street, was brought up during the course of the debate, sup-porting and against a minority report filed by Councilman Stachler of the committee. Councilman Stachler openly declared that Councilman Everhart was blased, for the reason that he was interested in a concern which was instrumental in proparing a protest to the granting of the license. This Everhart emphatically denied.

At a meeting of the License committee last Thursday night, there was a little debate over the question at As a result, the committee, with the exception of Stachler voted to recommend that the license be denied by the Council.

Motion Was Lost

The motion to deny the license was lost last night, leaving it still in the hands of the Council.

It was then moved and seconded that the license inspector, city attor-ney and petitioners be notified to be present next Monday night at the Council meeting. It will be brought up next Monday evening. In the meantime members of the Santa Fe improvement club will agitate the matter with the intentior of producing a petition to deny licenses to the other two saloons in he district, which Councilman Stachler says are at the bottom of the mafter of denving Rose the license, for the reason that they want to monopolize the

business of the district. Conflicting Petitions
A particularly bitter fight develop-

d, as a petition signed by many members of the Santa I'e Improve-ment Club had previous! been presented to the Council. The disagreement hinged about this point. The fact that they did not went to bring a saloon into a residence district against the will of the people as ex-pressed in the petition, and still did not want to deny a man who had spent money in erecting a building, a license, when there was a liklehood of the opposition being merely one brought up by the other Equor houses with the express intention of freezing out the new comers.

It was the opinion of some of the Councilmen, with Stachler as the champion, that if it could be shown that the citizens of the district wan them removed, all saloon; should be denied the privileges of the district.

#### FIRE IN LOS ANGELES BUSINESS CENTER

LOS ANGELES, Nov. 17. — Fire broke out late yesterlay in the three-story building at 316-22 West Fourth street, in the cellar of the down town district and threatened to destroy the building. On the ground floor, was a drug store and several small places of business. The two upper stories were occupied by offices and a rooming house. The fire starting in the basement spread so rapidly hat it was necessary to remove several women from the upper stories through the windows. A great crowd gathered and great excitement resulted. The burning building was immediately next door to the Broadway Department Store, one of the big busiless houses of the city and consternation reigned among the employes and to patrons of the store.

## Most Treatments for Rheumatism Are Experimental

It is unnecessary to tell the sufferer from inflammatory rheumatism that the ordinary treatments for this disease are unsatisfactory.

Physicians are not of one mind on the subject but the highest authorities hold that rheumatism is a disease of the blood. All admit that in attacks of rheumatism there is a marked and rapid thinning of the blood. This is a condition that a treatment with Dr. Williams' Pink Pills at once arrests and corrects. The thin blood is enriched, the strengthened organs of the body throw off the poisonous impurities and the patient gets well.

With the fact in mind that the rheamatism is in the blood, it will readily be seen how useless it is to try to cure it by rubbing liniments on the skin. External applications may give temporary relief from pain but to cure rheumatism you must treat it through the blood. Dr. Williams' Pink Pills have cured hundreds of cases of rheumatism and no sufferer should allow any prejudice to stand in the way of giving these pills a thorough trial.

Dr. Williams' Pink Pilis are sold by all druggists, or will be mailed, post-paid, on receipt of price, 50c, per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

'Agree on Jack Welsh as Referee --- Jimmy Britt Is Criticized by English Press for Fight With Summers.

By EDDIE SMITH.

THE final arrangements for the holding of the Billy Papke-Stanley Ketchel contest across the county line at the Mission-street arean was not as easy as expected, and last night, when Joe O'Connor, Tom Jones and "Oily" Jim Confroth met in the room of many dark and deep secrets at the Willis Cafe, it took the gentlemen of talk who have men fight for them, two hours and a half to come to an agreement as to the conditions under which the contest would be held, and how much money each one of the managers of the men who fight for them would be able to get for their fighters and incidentally for themselves.

Confroth and O'Connor had evidently come to an agreement prior to the meating, or for that matter long before O'Connor had jumped Gleason, and the argument with him was easy. Jones held out for something, and he held out well, whether or not he gained his point we are at a loss to know, but this much is sure that before the men finally did sign articles Coffroth beat Gleason's purse offer, and this ran up into the twenty odd thousand dollars.

Rig Purse Money

**Big Purse Money** 

The switching of the championship contest has probably run the purse money up to where the fighters will receive in the neighborhood of \$25,000 in guaranteed purses, and this is far too much for a rometer to guarantee any set of fighters. Of course, with the switching of promoters, the guarantee any set of fighters, the guarantee of a larger purse than the original offer was absolutely necessary, as it was a dinch that the managers would not break faith with the man they had originally signed with unless they were to benefit by it.

Coffight is the man who will have to worry about paying the money, however, and even it he will have to take in at least \$27,000 to hreak even, we will have an opportunity to witness a great contest, so what should we care as to the amount of money it will oost the crafty promoter.

Willie Britt was in attendance all dur-

of maney it was in attendance all dur-mater.
Willie Britt was in attendance all dur-ing the matchnisking, and it is said that at the time when the "Oily" one slowed down a bit that the manager of Battling Nelson simply envered the floor and filled the worn with the finest assortment of fight salve that the room of secrets has been flooded with since the matching of

Welsh Referee The selection of a referee for the contest was the existest part of the business arrangements for the contest. Joe O'Connor, who a week ago was to be allowed by the manager of l'apke to name a referee, amouned that he would allow Jones to name the man, providing he named one of the local men who had judged a big contest some time during his correct.

Judged a big contest some time during his career.

Jones announced last night that his choice was Jack Welsh, and O'Connor said that the relection suited him. The managers simply confirmed their appointment of a week ago, however, for Jack was named and y leed upon as the third man many days prior to the meeting of last night.

last night.

In the select on of Welsh no one can kick, for he has proven in numerous battles that he is competent, and in selecting him the managers have shown better judgment than would have been shown had they tried an experiment with some of the men that were named as possibilities.

United in

ing and clinching, but the chances are that he was making his usual fight of staying in close to his opponent and using the short arm punches the American fighters

At any rate, even in the face of the aderise criticism, that is hurled at the American, he is working at the music halls and is rematched to meet Summers. Following is an interesting interview of the Californian by an English scribe;

**Britt Interviewed** 

I guess I know them well enough. Say, too, Summers is no chicken. He is a rough flighter, as we say in the States. He bumped me. Some of those bumps is were accidental and can't be provided for, but some were foul. I spoke to the referee. If Summers had continued to bimmer is should have bumped him. The Sportsman' says I used my shoulder. My shoulder was used when I was swinging for a punch. I always want to fight quite honest; that is my, reputation. But as long as my two hands are free I intend to hit."

"Did Summers hurt you."

"Oh, no. He tapped me about the face. That is the amateur game; it is not mine. I am a tighter. I fought to fatten him out, and I figure I can do it."

"Well, he's a nice little fellow. Don't think I bear any animosty against him I don't. I think Johny is a great deal better fighter than Englishmen give him credit for being. He seems to be much better appreciated in America than he is over here."

**Another Contest** 

Another Contest

"Would you like another contest?"

"Yes, by all means. I have some music-hall engagements, and I have had an offer from Paris, but you can say that at a convenient date I shall fight Bummers again. It must be a longer go next time. Let it be twenty three-minute rounds. I am not myself satisfied with Monday's decision, because I am sure I can do better. I can beat Summers inside of twenty rounds. Say, too, I am willing—nay, anxious—for another go Let the at the National Sporting Club, or any place except Wonderland. I am not boxing there again. All I want is a straight, lair deal, Yes, and don't forget whom I meet Summers again it must be for more than ten rounds. To win in ten rounds I had to be after him all the time. This ten-round game is too short for me. I will fight Summers sure, or if he is not your best man, any other lightweight you have in this country."

"What about the lightweight champion—ship?"

"Well. I am not lightweight champion."

"What about the lightweight champion-ship?"
"Well, I am not lightweight champion, and I never authorized any statement to that effect. That title belongs to Battling Nelson. I have beaten Nelson, and I am always ready to meet him again. If the National Sporting ('lub will put up a purse I will gladly box him over here," In some casual conversation livitz expressed his pleasure at meeting many English sportsmen, and declared that he had been spiendidly treated over here. "I like the old country." he said, "and the English."

Britt in England

The English loxing fans were no doubt greatly surprise t at the showing made by Jimmy Britt in his ten round contest with Johnnie Summers, and when the referce. R. P. Watson, gave the decision to the fighter from Ca ifornia the rooters for the home boy let out an awful yell and made a big kick over the verdict.

In commenting on the decision the next day most of the papers express themselves by saying that the decision was an astounding one, and even go so far as to say that Britt did all of the lugging and that Summers did all the leading and clean hitting.

Every one of the sport writers take a filing at the American and while some are stronger than others in their denouncement of the decision its seems agreed that the decision was wrong.

After reading the criticisms of the English press, which just arrived, however, it would seem that Jimmy fought in the American style and Summers in the Britt is accused of fighting in the clinches and holding and clinchirg, but the chames are that he was making his usual fight of staying in close to his opponent and using the

NEW YORK, Nov. 17.—The Amateur Athletic Union of America yesterday at its annual meeting took action widen will have an important bearing upon turner international athletic events. It again elected as its prisident James B. Sullivan, who, in accepting the office, said he consented to serve a third term only because his retirement might be construed abroad as an adussion by him and by the American Olyapte committee that his acts as United States commissioner did not receive the senction of the union.

The union not only unanimously rejected Sullivan, rescinding its rule against a third term, but by resolution upheld him in the course he pursued in the games in Lonton when frequent disputes arose between the American athletic authorities and the committee in the games in Lonton when frequent disputes arose between the American athletic authorities and B. Itish athletic associations. This practically culminated yesterday by the adoption of resolutions which will bring about the soverance of all ties of friendly competition between these bodies. There never was a reality binding agreement between America and Great Britain in athletics, but yesterday's action by the union is drastic. The sense of the menting was that unless the morican Athletic Union has a share in the management of international meets here of the registered amateur athletes to from this country should be permitted to compets in them.

The union not only unanimously review was a freely shinding agreement of recommendations. All the control of the co

The new manager wants him to strengthen the outfield of the Yankees, which is badly in need of a prop. Stallings is partial to the clever fielder because he developed him in Buffalo six years ago and has a high opinion of the boy's ablifty. McIntyre gt 105 runs last year, leading both the leagues.

Never in the history of the game have there been so many aspirants for the position of manager, in the various clubs. There are more new managers to be hired this year than ever before, and the available material is austounding. The Cincinnati Reds and the St. Louis Cardinals are in the field for a good manager and have a list of applicants numbering lifteen each.

The latest mana for in the major league o get the sack in Patsey Donovan of the Brooklyn National. The officials of the dub slipped him the pink card last week, and have the want ad out for a new man-ger. Donovan was not aggressive ager. Donovan was not aggressive enough to please the owners of the club.

The small clubs are filling their ranks with managers that have been deposed in the major leagues. Ganzel of the Cincinnati Reds has eight jobs offered him. There was some talk of Frank Chance going to Cincinnati and succeeding Ganzel.

The American Association has begun buying material from the major leagues. Boston Americani got rid of Pitcher Glaze and Outfielder Chadbourne for \$1500 acch.

Slim Nelson has some aspirations for the funny stunt or the stage. The dan-gling pitcher has thet with a good deal of success in pulling the laughing talk, and his appearance is enough to throw a con-vulsion into the average crowd. # Oakland Freshmen Will Battle for First

Against Fast Maro Over Five Mile Course for \$10,000.

BEATTLE, Wast., Nov. 17.—A special to the Post-Intelligencer from Nome says:

One of the most interesting races ever witnessed on Seward peninsula and perhaps the most unique that has occurred for years was a race between a racehorse and dog team here Saturday, the dog team winning by 50 seconds in a tenmile course. Ben Jreymer, on Jake Berger's mare Dolly, celebrated in Alaska, raced with Coke Hill's dog team from this city to the nouth of Dexter creek and return, a distance of ten miles. The was made by both horse and dogs. The mare slipped while running on a little with the second round. Young attell of Vallejo and lost some ground.

Within three wesks another race will be run as a consequence of the dissatisfaction, and enough money was in sight today to make the ide bets \$10,000, which found ready takers.

The day after Ferdy Johnson signed with Oakland he received a letter from Portland asking him to name his salary and say what date he would report for practice. The following day, Dillon of Los Angeles asked the youngster for first chance.

Johnny Evers and Joe Tinker of the Cubs have been working together on several popular songs. They might do well to turn some of them in time to start them out with Hans Wagner's circus. Wagner will start his circus on the road early in the spring. George Cohan and Ringling Bros, are looking askance at the baseball world and may not patronize the game again.

Hal Chase, the outlaw star, received a quiet visit last week from a representative of George Stallings, who is trying to get him back in the fold of the New York Americans. Chase is the greatest first baseman in the world, and the most unruly as well as porverted.

One of the finds of the season next year profiness to be Deacon Rogers, a lanky college pitcher who starred in the Arkansas Leugue this year. Hugh Jonnings of the Tigers landed the man, and is nighty proud of his find.

Fred Merkie of "failed to touch second" fame with the New York Glants, is so humiliated at the noloriety he is receiving that he swears he will not appear on the Pole Grounds next year in Glant uniform, and is casting about for a minor league franchise to amuse himself with.

Christy Mathewson has slipped a new idea over in the baseball world by asking that his salary be doubled. Think, yo aspiring bushers, what is before you.

At League

The annual track and field meet of the Freshmen Bay Countles Athletic League will be held next Saturday afternoon at St. Mary's College oval. The cinder path has been placed in fit condition and it is expected that may new records will be established. The meet was scheduled to have been run of two weeks ago, but eving to the P. Ar'A, games and the intercollegiate footbeil game, was postponed until next Saturday.

The battle for irst place is expected to be a keen one with Lowell high school and Oakland high chool as the media contenders. Oakland has the distinction of having won every meet since the league was organized some four years ago. This year the Blue and White has another strong eggregation of first-year performers, but Lowell high school also has some stars on its team and will put up a good good fight.

In the last meet San Francisce freshmen meet Lowell won an overwhelming victory, annexing ten first places out of a pessible twelve. tob Van Acker, one of the biggest goint-winners in that meet, will be missing from this year's freshmen team that will try to capture the championship at St. Mary's College next Saturday.

Carroll Davis, son of Bookmaker Jim Davis, made his appearance at the track yesterday.

A dispatch from Chicago says that Edward Corrigan confirmed the announcement that he will retire from the turf. Every thoroughbred in the big racing entablishment will be disposed of and the master of Hawthurne, for years one of the West's best known turf characters, say he may never send another horse to the post again.

Clarence Blethen, managing editor of the Soattle Times, was a visitor at Williams Park yesterday. Mr. Blethen is an ardent admirer of he thoroughbred. During the afternoon he payed a visit to the boys in the press stand, accompanied by Attorney Kenneth Mocintosh and Mr. Maraduke.

# KAISER YIELDS BEFORE CLAMOR OF HIS PEOPLE

# Emperor Promises Von Buelow He'll Be Good

SERLIN. Nov. 17. - Chancellor Von terference in the state affairs of the na-Buslow in his interview with the Emperer at Pottsdam asked his Majesty for a declaration, with permission to publish the same, to the effect that in the future the Emperor would deal with State affa rs only through the ex-isting constitutional channels, namely, through the chancellar.

His Majesty accoded to this request and the declaration asked for appears

in the Reichsanzeiger today.
His Majesty expressed his complete confidence in the chancellor, and the chancellor will remain in office. Furthermore, the Emperor accepted the proposition made by the Prince con-cerning the fiture conduct of state affairs. The result is believed to have ameliorated the very serious internal situation which has resulted in Germany for the past fortnight.

#### **Serious** Outbreak

Serious Outbreak
This meeting, which was watched by
the entire German people with the most
profound interest, is an outcome of the
much-discussed "interview" with an
Englishman, published in the London
Daily Telegram on October 28, in which
the Emperor was credited with a very
frank statement of the world policy of
the German empire, and also with being
a very good friend of Great Britain. The
publication was belowed by a furious outbreak in Germany against his Majesty.
He was most saverely criticised by the
German press, sind in the Reichstag, for
his indiscretion and for unwarranted in-

Prince von Busiow replied to these criticisms of the Reichstag and said the Emperor in the future would retrain from

Emperor in the future would refruin from a repetition of his action.

During the meeting today the Chancellor explained clearly to his Majesty the temper of the German people on this matter. Whether the Chancellor remained in office depended on how the Emperor approved of his statements.

The Reichsanzeiger, the official gazette of the empire, will publish tonight, with the sanction of the Emperor, the following statement:

ing statement:
"In the course of the audience granted "In the course of the audience granted today by the Emperor, Chancellor Von Buelow described to the Emperor the mood of the nation and explained his opposition with reference to the debate in the Reichstag of last Thursday. The Emperor listened to these explanations with great earnestness and expressed his will as follows:

"Heedless of the obvious incorrect exaggerations, his Majesty considers his principal aim to be to secure the continuance of the imperial policies under the safeguard of constitutional responsibilities, he approved the Chancellor's address in the Reichstag and assured the Prince of his continued confidence."

#### Confers With Ministry

Immediately after his return from Potsdam, Chanceller Von Buelow saw the members of the Prussian Ministry in confidential council and communicated to them the details of his audience with to them the details of his audience with

Immediately after the meeting with the
Ministry. Details of the Potsdam audience were communicated to the leading
members of the federal council by Minister of the Interior Hethmann-Holleg.
Chanceller Von Buedow arrived at the
Palace at Potsdam at 11 o'clock and was
at once admitted to the presence of his
majesty for the interview. The emperor
and the empress had arrived at the new
palace at Potsdam about 8 o'clock this
morning.

The chancellor left Berlin in a reserve car on the regular train. He appeared fresh from his recent indisposition. He-plying to an acquaintance at the station who assured him that the entire German nation accompanied him in spirit on the journey. Prince Von Buelow said in a

"I have no other idea than to do my duty to the German people."

One Cannot Tell The friend then expressed the hope that

the people scon would be in a position to shout "Brave, Buelow!" To this remark Chancellor Von Buelow answered smilngly: "One cannot tell how things will turn

The audience between his majesty and the chancellor lasted for over three-quar-ters of an honr. At its conclusion Prince Von Buelow took a train back to Berlin.

# Are You Up a Stump?

Want to know why it is your friend Brown can own his home when he receives only the same salary that you do?

Do you wonder why the Johnsons can rent a house in a choice locality and pay \$15.00 less than you?

I'll tell you: Brown's credit is good at Breuner's—we furnished his home; Johnson purchased his furniture here, too-he rents an unfurnished house-and saves \$15.00. Better move out of those furnished rooms—let us furnish up a cozy little home for you—little down and a little each month and you'll be as "well off" as your friends. Think it over tonight.

On New Year's Eve one of our customers will receive a \$4000 Bungalow, absolutely free.

A coupon is given with every \$3.00 purchase.

KOREAN MURDERER HAS HIS CASE CONTINUED

SAN FRANCISCO, Nov. 17 .- Foiowing a conference between Superior Judges Carroll Cook and Frank Murasky, it was decided to postpone the case of I. W. Chang, the Korean, who shot and killed D. W. Stevens, the Japanese diplomat, at the ferry building last March, until November 30. This arrangement was made because of the fact that Attorney Ferral, who is one of the counsel for Chang, is actively engaged in the case of Frank J. Murphy. It was agreed, however, that should the Murphy case not be completed by the date set, Chang's trial
